Mr. Chau Cheok Wa, Chairman, said:

“We are creating the good, and sustaining the bad. Summit Ascent is a blessed company with a solid cash basis and is debt-free. Suncity brought in additional flexibility to become our company’s core mindset. We have a lot of bright ideas for growth; however, being able to sustain for now is the prerequisite to talk about tomorrow. Thanks to the solid local Russian demand, Tigre de Cristal continues to generate a positive-EBITDA in the first half of 2021, even surpassing that of the second half 2020 by 1.3 times. No one knows for certain how long the world will be disordered by COVID. Yet I am certain that even if the pandemic last for a while longer, Summit Ascent is well-equipped to survive the storm. Thanks to the Russian Government, our shareholders, our staff and our suppliers for your support to our company during challenging economic times.”

Market Overview

Russia

In Russia, the tourism industry was significantly impacted by the resurgence of COVID-19 pandemic in the first half of 2021. Total foreign arrivals in Primorsky region in the first quarter of 2021 decreased 71 % year-on-year to 19,788¹. Borders for international tourism remained closed, and electronic visas to Russia were still suspended. Authorities extended tightened COVID-19 countermeasures, including restrictions on mass entertainment events and limiting restaurants’ operating hours. Russia has launched its vaccination programme since December 2020. Mandatory vaccination was introduced in at least 18 regions in the country for high-risk groups as virus cases surged in the first half of 2021. Russia targets herd immunity by 1 November 2021.

The Philippines

In the Philippines, international tourism has not resumed yet. Manila’s integrated resorts were required to temporarily suspend all operations in late March 2021 as the country entered another wave of COVID-19. Until late May 2021, the casinos resumed operations at limited capacity. The Philippines’ total GGR in the first half of 2021 was PHP50.9 billion (equivalent to approximately US\$1 billion), down 8% year-on-year². Foreign arrivals in January to May of 2021 decreased 97% year-on-year to 46,322 million³. The Philippines government started its COVID-19 vaccination programme in March 2021 and targets to have up to 70 million people vaccinated by 2021.

Development Update

Tigre de Cristal, Russia

Tigre de Cristal Phase I upgrade has already been completed, pending border reopening to fully utilise the new upgrades. A brand-new Suncity Premium Club, a new authentic hotpot restaurant and a new private club are now ready.

Phase II planning and construction are well underway except minor delays due to COVID-19. When Phase I & II are both running, Tigre de Cristal will triple in its number of rooms, and double in number in its gaming facilities. Together with other integrated resorts in Primorye, they are going to form a gaming cluster known as the Primorye IEZ.

Westside City Project, Philippines

Through investing in the convertible bonds in Suntrust Home Developers, Inc. (“SunTrust”), Summit Ascent has exposure to the Westside City Project in the Philippines.

Construction works are going on at full steam in Westside City Project even though Manila was under lockdown. The construction team on the ground are working around multiple challenges due to the lockdown while they adjust priority to deliver progress. The foundation works have been completed, cranes are now being erected and the focus is to construct the building upwards. Westside City Project is expected to be ready in 2023.

When all phases of Westside City Project are ready, it will consist of:

- Approximately 300 gaming tables
- Over 1,300 electronic gaming machines
- Over 450 five-star hotel rooms
- Approximately 1,000 car park spaces
- Pool club & leisure club etc.

Westside City Project will be integrated with the shopping malls, theatres, restaurants, and shopping streets, etc. to be built by Suncity’s partner Westside/Travellers International Hotel Group Inc. They will also build additional hotel rooms, a shopping mall, a Grand Opera House, restaurants, a theatre district and an additional of approximately 2,000 car park spaces.

Outlook

The COVID-19 pandemic continues to be the most prevalent uncertainty in our business operating environment. While we are being pragmatic in controlling costs across the board, we have been able to crystallise some of the temporary savings into permanent ones by improving efficiencies. We continue to remain cautiously optimistic in the long run for the Group as its long-term fundamentals remain solid and has not been affected by the pandemic.

Under the pandemic, even with zero foreign tourists, Tigre de Cristal was already able to generate a positive EBITDA merely based on local Russian mass and slots businesses, which act as downside protection for the Group. The Group has a strong balance sheet, solid cash and no debt. Unlike some gaming operators which added leverage to their balance sheets during the pandemic, we have never raised any debt to weather this storm. The cash we have on our balance sheet offers us the flexibility to develop for growth while sustaining through the pandemic.

Secondly, the Russian Federation is blessed as it has access to the self-developed vaccines, which means that as vaccination rates in the country continue to be improved, it is less likely that mandatory closure of the integrated resorts will be required again. Therefore, we believe that the worst-case scenario affected by the pandemic has already passed, and as long as the COVID-19 situation remains under control in the Russian Federation, mandatory complete closure is relatively unlikely to happen again.

Thirdly, the hardware for our main growth drivers are ready. The brand-new Suncity Premium Club and the hot pot restaurant are now fully operational in Tigre de Cristal, pending border reopening for full utilisation. In the short run, while our operating expenses can be sustained through continued operations supported by the local mass and slots businesses, growth in premium mass and Suncity Premium business will depend heavily on border policies because of the reliance on tourism in these two segments. As the world continues to fight back the virus with improving vaccination rates, it sets the scene to allow talks of border reopening between countries soon.

In addition, we are excited to observe that international flights are resuming to the Vladivostok International Airport from 2021 onwards from places such as Seoul and Tokyo. Although the number of tourists arriving at Vladivostok via these flights is low due to back-and-forth quarantine requirements, we are confident on the overall long-term appeal of the IEZ Primorye. Together with the recent and would-be openings of new integrated resorts in the IEZ Primorye, the cluster effect can draw tourists and turn the area into a leisure destination on its own. The uncertainty in land-based gaming developments in Japan also poses an opportunity for the IEZ Primorye to fill this gap as it is only a short flight away for Japanese tourists.

Finally, plans for expansion are continuing to move forward. When TdC Phase II is ready in 2023, Tigre de Cristal will triple the number of existing rooms and double the number of gaming equipment. Through the investment in the convertible bonds in the principal amount of PHP5.6 billion with a 6% coupon rate issued by SunTrust (the "SunTrust CB"), the Group is diversifying into the Philippines gaming market. SunTrust is the sole and exclusive operator and manager of an integrated resort in the Philippines (the "Main Hotel Casino") expected to commence

operations in 2023. Leveraging on Suncity’s successful experience in the gaming industry, we are confident that both TdC Phase II and the Main Hotel Casino in the Philippines will become key growth drivers for the Group when they are both up and running.
